Midjourney training: Create your images with AI

2 days (14 hours)

PRESENTATION

The Midjourney training course will enable you to master this revolutionary AI tool. Midjourney is a program that allows you to generate iamges from instructions given in natural language. It works in a similar way to OpenAI's DALL.E, Stable diffusion or FireFly.

With our [Midjourney](#) training course, you'll be able to take full advantage of the features of this intelligent assistant, enabling you to create high-quality images to suit your specific needs.

This training course will teach you in detail how Midjourney works, as well as the best practices for writing effective prompts. We'll also look at the financial, legal and ethical issues involved in using generative AI, to ensure that you use this powerful tool responsibly.

During this training session, we'll be using the [latest version of Midjourney](#), and you'll learn how to take full advantage of the platform's advanced features.

OBJECTIVES

- Understand the fundamental concepts of Midjourney and how it differs from other AI tools
- Learn to create images using specific prompts and conditions with Midjourney
- Master Midjourney's advanced settings and options to customize image generation
- Explore advanced techniques such as matrixing, image merging and image enhancement through retouching and AI upscaling

TARGET AUDIENCE

All audiences.

Prerequisites

- Midjourney subscription
- Download Discord and create an account

OUR MIDJOURNEY TRAINING PROGRAM

Introduction and set-up

- What is Midjourney?
- Difference between OpenAI, Midjourney, ChatGPT, and other AI tools
- How does Midjourney work?
- Discover Midjourney's Discord server
 - The /imagine command
 - Midjourney's limits
- Safety precautions
- The different Midjourney subscriptions
- When should **Midjourney** be used?
- The ethical, legal and legal challenges of generative AI

USING DISCORD

- Interface
- Interacting with the Bot
- Private messages
- Reactions
- Using Midjourney on a personal server
- Using Midjourney.com

BASICS OF IMAGE CREATION WITH MIDJOURNEY

- Prompt
 - Write a prompt
 - How to build a good prompt
 - Online tools and services to assist you in your prompts
- Rights of use, rules to follow, copyright of generated images
- [PRACTICE] Creating an image with a prompt and specific conditions
- Complete structure of a Midjourney prompt

IMAGE ENHANCEMENT

- Upscaling
- Variations
- Vary Region
- Zoom
- Pan

SETTINGS AND OPTIONS

- Midjourney parameters
 - Sref/Cref
 - Aspect Ratios
 - Chaos
 - No
 - Quality
 - Repeat
 - Seeds
 - Stop
 - Style
 - Stylize
 - Tile
 - Version
 - Video
 - Weird
- Controls
 - Blend
 - Describe
 - User Info
 - Settings and Presets
 - Show Job
 - Shorten

ADVANCED PROMPTING

- Working with existing images
 - Blend
 - Image previews
 - Describe
- Advanced prompting features
 - Multi Prompts
 - Remix
 - Permutation Prompts
 - Remaster
 - Repeat
 - Seeds
 - Stop

TO FIND OUT MORE

- Tile
- Video
- Application for the web and social networks

- Storyboarding
- Comic strips
- Image animation with third-party tools (Heygen, Luma Ai...)

Companies concerned

This course is aimed at both individuals and companies, large or small, wishing to train their teams in a new advanced computer technology, or to acquire specific business knowledge or modern methods.

Positioning on entry to training

Positioning at the start of training complies with Qualiopi quality criteria. As soon as registration is finalized, the learner receives a self-assessment questionnaire which enables us to assess his or her estimated level of proficiency in different types of technology, as well as his or her expectations and personal objectives for the training to come, within the limits imposed by the selected format. This questionnaire also enables us to anticipate any connection or security difficulties within the company (intra-company or virtual classroom) which could be problematic for the follow-up and smooth running of the training session.

Teaching methods

Practical course: 60% Practical, 40% Theory. Training material distributed in digital format to all participants.

Organization

The course alternates theoretical input from the trainer, supported by examples, with brainstorming sessions and group work.

Validation

At the end of the session, a multiple-choice questionnaire verifies the correct acquisition of skills.

Sanction

A certificate will be issued to each trainee who completes the course.
